

FACILITIES CHARGE RATE SCHEDULE FC-1

Date Effective: May 1, 2021

AVAILABILITY

Service is available under this schedule at any point on the Cooperative's system where this schedule is applicable.

CHARACTER OF SERVICE

This rate schedule is applicable for determining monthly charges for electric facilities and equipment required by the consumer and installed, owned, and maintained by the Cooperative on the load side of consumer's meter. These facilities include, but are not limited to transformation equipment and accessories, poles, pole fixtures, wires, luminaires, cables terminators, switches, protective equipment, metering equipment, and pulse data equipment.

This rate schedule can also be used when revenue to be derived from an installation does not meet minimum revenue requirements such as, but not limited to, highway lighting installations.

MONTHLY CHARGE

The monthly charge is the total installed cost times multiplier.
The monthly multiplier is 0.02.

TAX CLAUSE

Billings under this rate schedule shall be subject to the Mississippi state and municipal sales taxes and any new or additional taxes imposed upon the Cooperative by any governmental authority after the effective date of the schedule.

TYPE OF BILLING

Charges under this rate schedule, including all taxes, will be added as an item to the consumer's electric service billing.

TERMINATION OF CONTRACT

If the consumer terminates the contract for electric service prior to expiration of the primary term of the contract, the consumer shall pay a facilities termination charge which is the monthly facility charge times the remaining months in the term of the contract.
