

# MEMBERS HELPING MEMBERS

The cooperative way for 84 years.

**SOUTHERN PINE ELECTRIC**  
2022 Annual Membership Report

# SOUTHERN PINE ELECTRIC

## The Cooperative Way

Southern Pine was incorporated in 1938 to bring affordable and reliable electricity to our members living in rural areas. Today, we serve over 69,000 meters across 11 counties. We bring the power to farmers, doctors, construction workers, sheriffs, engineers, teachers, students, moms, dads, grandmas, and grandpas that have made Mississippi their home. We love our communities and our members. These are our people. ❤️

"Alone we can do so little, together we can do so much." Helen Keller

# CEO WELCOME

## WELCOME TO OUR 2022 MEMBERSHIP MEETING

As a relative newcomer to a distribution cooperative, I have enjoyed learning the ropes, working with employees, and absorbing the wisdom of our board during some trying but rewarding months.

Alongside what we consider recurring challenges, we have faced supply chain shortages as never before. Legislative mandates and political actions have left us to determine the best courses of action to protect Southern Pine, and our members, from burdensome requirements and prohibitive costs.

While preparing to write this report and focusing on the positive work we have accomplished, I think of our employees' dedication and hard work. As always, the safety of all employees is paramount. Our safety record is a testimony to the diligence of our safety and training departments and employees who work safely, reduce accidents, and return to their families at the end of the workday.

No one needs a reminder of the financial challenges all of us have encountered in 2022. Everything

is more expensive and we must still care for our families and businesses. Despite that, I am pleased to report that Southern Pine is financially sound and prepared to meet unforeseen contingencies.

High electricity demands due to weather events, higher consumption from ever-increasing technological needs and devices, and extreme weather conditions, have tested the infrastructure and amplified the need for upgrades in several areas. To keep pace with demand and improve reliability, we have significantly enhanced existing substation sites and equipment over the year. That, together with an aggressive right-of-way clearing plan, has helped improve system outage times and service to members. The call center implementation has reduced telephone hold times, and a new text option provides greater flexibility when reporting outages. The addition of collection notifications via text has resulted in fewer disconnects and better member satisfaction. By this time next year, we hope to have payment kiosks available for the convenience of our members.

Though providing electricity is our business, we are always active in economic development that benefits members and our region. We support our local newspapers, media partners, blood banks, law enforcement

agencies, and emergency response personnel throughout our eleven-county area. Other programs for the benefit of members are the National Cooperative Day of Service, Cold Feet Hurt, Pennies for Power, Adopt-a-School, Member Circle, energy and conservation fairs, home audits, safety demonstrations, food drives, and work at community and school events. In addition, we provide Today in Mississippi magazine for all members. The magazine is a timely way we can communicate with members, particularly those who are not engaged on social media.

As we conclude another year at Southern Pine, I think of the wisdom in Helen Keller's words when she said, "that alone we can do so little, but together we can do so much." Those words exemplify what it means to be an electric cooperative and work together toward a shared vision.

I am excited to see what the new year holds for us and ask God's blessings on our employees, directors, and you, our members.

A handwritten signature in white ink that reads "Chris K. Rhodes". The signature is written in a cursive, flowing style.

*“Walking a mile in someone else’s shoes is not about the walk. It is about empathy. It is about understanding. You can never serve others without consideration for their position, and for what they are going through.” - Mickey Berry*

# BOARD REPORT

## THE COOPERATIVE WAY Walking a Mile in Each Other's Shoes

Since our humble beginning in 1938, directors, managers, employees, and members have walked thousands of miles in the proverbial "other person's shoes." We all know what it means to live in a rural area, and even though we all face unique challenges, there are striking similarities. Everyone struggles when economic growth is sluggish, supplies are limited or impossible to find, and financial demands increase faster than income.

Here at Southern Pine, we have faced enormous challenges along with the rest of our members and the people across our nation. Costs have increased, and we've had to face the possibility of a significant weather event, and today's challenges of acquiring resources and supplies to repair damaged infrastructure. As a board, our number one concern is how our members are affected and how we can mitigate adverse impacts.

Difficult times require difficult decisions, and we have remained true to our mission by taking steps to make sure Southern Pine is financially sound. We have reduced non-critical work plan projects to ensure we can care for your needs in a catastrophic event. We have

aggressively worked to clear and maintain rights-of-way and have worked hard to ensure that we are adequately staffed with a highly trained workforce. No person, no business, no cooperative, is perfect. Still, we firmly believe we have the capabilities and resources to take care of our members when they need us. Though times are uncertain, we are confident that the economy will improve and that the challenges we face today will make us a stronger cooperative tomorrow.

We have that confidence because we have been through challenges and difficult times before. We are Mississippians. We have joined together countless times, in the cooperative way, to meet joint needs. We have walked alongside each other to accomplish goals, worked together to construct the first power lines, open the first make-shift office, and the list goes on and on. Some 84 years later, we are still providing electricity and working together to understand mutual challenges, needs, and experiences.

We have never forgotten our primary goal and the reason we are in business - to provide reliable electricity at an affordable price. And though there are hundreds of different opinions and thought processes, we all agree that the need for electricity will always be a given. Through hard work, competent leaders, and a

determination to put our members first, we are well prepared to take care of electricity demands and respond when needed. If we can succeed in these endeavors, we will move forward together. That is the cooperative way. May the challenges we have faced make us stronger and the years ahead be kinder to us all.

*Billy M. Berry*  
**BILLY M. "MICKEY" BERRY,  
CHAIRMAN OF THE BOARD**

# MEMBERS HELPING MEMBERS

Today we celebrate 84 years of members helping members! Over eight decades of joining forces to make sure that all of us have the electricity we need, when we need it. More than 30,000 days of building infrastructure, constructing lines, and clearing rights-of-way to rural homes and businesses across 11-counties.

Members helping members have a say in how we deliver affordable electricity to power your life and the lives of a few thousand of your friends and neighbors.

Members helping members to be a part of one of the largest cooperatives in the state and nation. Working together, we negate risks, accomplish more economic development, keep our young people in the state, and provide educational opportunities for our families.

Members helping members to be a part of something much bigger as we contribute millions of dollars in revenue for jobs, impact spending, promote better living standards, market our region, and provide countless resources to people needing them the most.

## **ADVISORY COMMITTEE**

# COMMITMENT TO OUR MEMBERS

## RIGHT-OF-WAY CLEARING

With over 10,500 miles of energized lines spanning 11 counties, vegetation management is a continuous cycle. In the first eight months of 2022, over 2,000 miles have been cleared. We anticipate clearing another 800 miles by the end of 2022. This year we have 20 trimming machines working on our system. This right-of-way maintenance allows Southern Pine to quickly restore service to our members during all outages but is critical to restoring power during significant storm events.

## CALL CENTER

Our members deserve to reach Southern Pine when they need us. With that in mind, we opened a new member service call center in spring 2022. Staffed with dedicated local employees, the call center operates in headquarters in Taylorsville. These employees know Southern Pine and our members and have the knowledge and skills to help you. Since implementing the call center, representatives have helped more than 50,000 members.

MY POWER  
QUICK PAY

## MYPOWER QUICK PAY

You asked for it, and we heard you. When we changed payment service providers in 2021, the one-time payment option was unavailable. Through diligently working with the current vendor, we are happy to report that MyPower Quick Pay is now available at [southernpine.coop](https://southernpine.coop). It's quick and easy, and all you need is your account number and the last four digits of the phone number associated with the account. Once you verify the account is correct based on the address listed, you can proceed with making a payment.

## TEXTING FOR OUTAGES

In 2022, Southern Pine added a new service for our members – texting for outages. It has been a great success and is an easy and convenient way to report outages quickly. Southern Pine can also text a specific group of members if planned maintenance is scheduled in a particular area that will require an outage. To take advantage of texting, please make sure your cell phone information is listed on your account.

# WE DO MORE THAN PROVIDE ELECTRICITY

## SAFETY DEMONSTRATIONS

Southern Pine's highly-trained safety team is available for electric safety demonstrations at schools, businesses, or community events. Electrical education, and the commitment to always put safety first, ensures that our men and women return home each day to their families and loved ones.

## COOPERATIVE DAY OF SERVICE

As we commemorate the legacy of Dr. Martin Luther King, Jr. each January, Southern Pine participates in Cooperative Day of Service. Our employees volunteer with local agencies in need of help. This year we volunteered to do some renovations at Hope Recovery Center and Piney Woods School. Another group participated in highway cleanup and beautification projects.

## STUFF-A-TRUCK FOOD DRIVES

Through Stuff-a-Truck food drives, we help local food pantries stock their shelves. We don't want anyone to go hungry when we're here to help. Our members and employees have really shown their giving spirit and kindness during these drives, filling up trucks with food to help those needing a hands-up.

## MEMBER CIRCLE

We love getting together with our members and hearing what you have to say, so every quarter we host a Member Circle in a different county. This time of food, fellowship, and feedback is a perfect opportunity for our members to learn what is going on at Southern Pine and to let us know of what you think. We want to hear from you!

## JOINT COOPERATIVE MEDIA DAY

Southern Pine, along with several sister co-ops, hosts Joint Cooperative Media Day in May to meet with our media partners. The day includes a roundtable discussion, speakers, and a meet and greet. Media partners play a critical role in disseminating information to members, especially during severe weather events. We want to make sure they have the facts needed to communicate with members.

## PENNIES FOR POWER

There are many folks struggling to make ends meet and one way we help is with Pennies for Power. Every year the employees of Southern Pine join forces to pay a member's power bill during the Holidays. Together, we can do so much.

## COLD FEET HURT

Socks are the most requested item from local nursing homes and shelters, so we fill some of that need through Cold Feet Hurt. Employees, members, and directors donate hundreds of pairs of socks, and then we deliver them within our service territory, along with other items they may need. It may seem like a small gesture, but to many, a pair of clean, warm socks, can brighten their day.

## COMMUNITY SERVICE

Just like you, Southern Pine employees are coaches, Sunday School teachers, and volunteers. Whether volunteering to serve on a local chamber of commerce, coaching little league, or volunteering at a shelter, the employees of Southern Pine are always giving back to the communities we serve.

# OUR FUTURE

The future of Southern Pine, and our state, depends upon young people. Southern Pine's Student Ambassador Program, Youth Leaders, and cooperative story. They will know and value the economic impact of Southern Pine and will work to ensure that the foundation establis

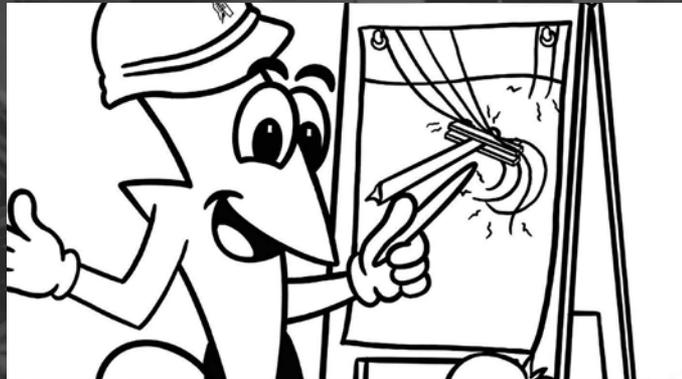

## COOPERATIVE UNIVERSITY & YOUTH TOUR

Each year Southern Pine holds Cooperative University for area high school juniors. High School counselors nominate two students from their school to attend this leadership event and participate in interview sessions. Two students are selected to participate in Electric Cooperatives of Mississippi's Youth Leadership program and meet with other Mississippi students in the spring at the workshop in Jackson. The students also participate in Youth Tour, a weeklong tour of Washington, D.C. in the summer. This amazing opportunity is something the students will never forget.

## PINE SAPLING DAY CAMP

Southern Pine hosted our very first Pine Sapling Day Camp for children of employees, ages 8-10, and it was great fun for our employees and the kids who participated. The fun-filled day that included a tour of the Headquarters and Taylorsville District offices, games, outside activities, and so much more. The highlight of the day was an intense game of cornhole with the campers competing against Southern Pine employees.

## LIGHTNIN' JACK

Southern Pine's mascot, Lightnin' Jack, is here to teach children about electrical safety, conservation, and Southern Pine. Safety is Lightnin' Jack's number one goal for all of our kids, and safety around electricity is his specialty. He's featured in a safety video for kids, a new coloring book, and will be part of Southern Pine for years to come.

hip, Adopt-a-School, and Lightnin' Jack ensure that today's youth, and future generations, will understand and know the importance of the shed in 1938 remains strong for our members today, tomorrow, and for decades to come.

## ADOPT-A-SCHOOL

Southern Pine Electric values working with the communities we serve to make life better for everyone. One of the ways we do that is through the Adopt-a-School program. Each year, Southern Pine chooses a new school in its service territory. Simpson Central School in Pinola was our adopted school for 2021-2022 and together we made an impact. Southern Pine worked together with teachers and administrators, providing resources and participating in activities to enhance the school. We are honored to be able to serve as a partner for Simpson Central School during the 2021-2022 academic year.

## STUDENT AMBASSADOR

Each year Southern Pine selects one student to serve as student ambassador. This student works closely with the communications department at community events. In addition, the student creates graphic design materials, assists with photography, writes for our publications, and learns about Southern Pine and electric cooperatives.

## PLEDGE OF ALLEGIANCE VIDEOS

Southern Pine is proud to sponsor the Pledge of Allegiance each morning on the local Fox affiliate. Each week, a different school in our service area is highlighted as the children recite the Pledge of Allegiance.
